## About cookies

### What are cookies?

Cookies are small data files sent by a website's server to a web browser, processor memory or hard drive and stored there. They can be used for a range of different purposes, such as customising a website for a particular user, helping a user navigate a website, improving that user's website experience, and storing that user's preferences and login information.

### Essential and non-essential cookies

Cookies can be classified as either 'essential' or 'non-essential'.

Essential cookies: these are cookies that are either:

- used solely to carry out or facilitate the transmission of communications over a network; or
- strictly necessary to provide an online service (e.g. our website, <https://color-metal.ro> or a service on our website) which you have requested.

**Non-essential cookies:** these are any cookies that do not fall within the definition of essential cookies, such as cookies used to analyse your behaviour on a website ('analytical' cookies) or cookies used to display advertisements to you ('advertising' cookies).

### Session and persistent cookies

Cookies can be classified as either 'session' or 'persistent', depending on how long they last after they are placed on your browser.

**Session cookies:** session cookies last for as long as you keep your browser open. They expire when you close your browser.

**Persistent cookies:** persistent cookies expire at a fixed point in time or if you manually delete them from your browser, whichever occurs first.

### First and third party cookies

Cookies can be classified as 'first party' or 'third party'.

**First party cookies:** these are cookies placed on your device by our website domain.

**Third party cookies:** these are cookies placed on your device by third party website domains.
